Dress for Success Case Study Logistics and Work Flow Support

While many agency executives think “consulting” automatically means strategic planning, board development or even financial recommendations – sometimes consulting means logistics planning, modifying work process solutions, writing revisions to job descriptions or even doing grant research.

DRESS FOR[®]
SUCCESS
CINCINNATI

For Dress for Success Cincinnati, having OneSource Center as a resource on all these topics has been a tremendous support as the organization prepares for its upcoming move to Norwood in June.

According to Executive Director Lisa Nolan, when she and her team need help, she asks “How can we utilize OneSource Center’s services to assist us in this effort?”

The mission of Dress for Success is to empower women to achieve economic independence by providing a network of support, professional attire and development tools to help women thrive in work and in life. Wanting to best utilize volunteers and the tremendous number of clothing donations coming through their facility, Dress for Success collaborated with OneSource Center to build efficiency systems into its inventory process and to make recommendations on staffing for the Donation Center.

“Often what happens in organizations is that once work practices and department responsibilities are established, they are simply repeated over time without questioning if they are still the best approach,” said OneSource Center’s VP Consulting Services Vickie Ciotti. [-more-](#)

Grant Research Tools through CPL

[Grant research](#) through the The Cincinnati and Hamilton County Public Library has pivoted

through the pandemic to make it as accessible as possible to nonprofit leaders. During COVID “quarantine” times, The Foundation Directory Online Essential Tier, a search engine for grant opportunities, had been available 24/7 through home access with a library card.

As of Thursday, March 25, with a Cincinnati Public Library card, individuals will only be given one single 24-hour period (within a given month) to have home access to this database. (A day pass can be re-issued after 30 days.) For library card holders -- the good news with returns to "normalcy" is that the Foundation Directory Online Essential Tier has returned to being available for daily use at the main library – but the only catch is that use is by appointment only.

NOTE: To assist agencies that can't devote time for a downtown visit, or for agencies that need more extensive grant lists than they are able to do for themselves, OneSource Center now provides grant search services. Several agencies have utilized this offering, and laud its benefits. Contact [Vickie Ciotti](#) to get more information!

Kent Mulcahey, the library's grant resource librarian, is an incredible resource and is available for Zoom/Google Meet sessions to discuss strategies and help guide your library grant search for the very best funders if you would like to utilize him during your “at home” pass day. (Be sure to set up an appointment ahead of time to be sure he is available.)

Questions? Email Kent at kent.mulcahy@cincinnati.library.org for instruction sheets, guidance or appointment times. Email Kent to schedule your grant research time at the library as well. More information, provided by the [Grant Research team](#) at the Cincinnati Library is [here](#).

Letter of intent due May 1.

The Daniel and Susan Pfau Foundation Grant. The Foundation's primary focus is on the education, health, cultural experience, and social welfare of disabled children, adolescents, young adults (to age 30), and their families. A secondary focus is on disadvantaged children, adolescents, young adults (to age 30), and their families. There is a special interest in programs which help clients realize their full potential. An additional area of interest for the Foundation is the support of large regional arts and cultural organizations. The Foundation will consider small- and mid-size arts organizations that use the arts as a vehicle for achieving impact rather than the end goal and are able to share results of successful outcomes. Letter of intent due May 15.
