### CGC Green Girls in STEM Deadline

Women have made great strides in the workforce over the past 50 years but are still underrepresented in the areas of science, technology, engineering, and math (STEM). In response, the Civic Garden Center created "Green Girls in STEM" – an immersive year-long, hands-on program for young women in high school to explore STEM careers, sustainability, and leadership development. Green Girls in STEM provides experiences that leave students

feeling more connected to nature, their communities, and the wider world. Applicants should be creative thinkers and willing to work collaboratively with others. No experience is necessary, just an interest in STEM, the environment, and leadership development. The program is FREE, and applications are due May 24. A brochure is available [here](#). # Grant Information

*Find more information and links to these opportunities on the [OneSource Calendar](#)*

**The Daniel and Susan Pfau Foundation Grant.** The Foundation's primary focus is on the education, health, cultural experience, and social welfare of disabled children, adolescents, young adults (to age 30), and their families. A secondary focus is on disadvantaged children, adolescents, young adults (to age 30), and their families. There is a special interest in programs which help clients realize their full potential. An additional area of interest for the Foundation is the support of large regional arts and cultural organizations. The Foundation will consider small- and mid-size arts organizations that use the arts as a vehicle for achieving impact rather than the end goal and are able to share results of successful outcomes. (These outcomes must be aligned with the first two priorities of the Foundation). A fourth area of interest is recreation areas. Letter of intent due May 15.

**The Donald C. and Laura M. Harrison Family Foundation.** The Foundation's primary initiative is to support the launch of new and innovative educational programs for primary, secondary, and adult education. Another emphasis is focused on funding programs for underprivileged children, youth, adults, and families, which will empower them to become productive and contributing citizens. Programs that project sustainability after two years of

funding by the Foundation and programs that have additional matching fund opportunity will receive higher priorities. Letter of intent due May 15.

**Duke Energy: Community Impact & Urban Revitalization Grants.** The foundation makes a limited number of grants to nonprofit organizations and also invests in philanthropic programs that provide access to and encourage an appreciation of the arts and culture – powerful tools that connect people and help economies thrive. In addition, the foundation supports capacity building initiatives that strengthen the nonprofit community. (This may include pilot trainings or professional development programs to build capabilities, knowledge and skills to help nonprofits fulfill their missions.) Applications accepted April – May.

**GCF “Learning Links” grants** are available to schools in Butler, Clermont, Hamilton or Warren in Ohio; Boone, Campbell or Kenton in Kentucky; or Dearborn County in Indiana. The grants support opportunities for K-12 educators bringing creative and interesting projects or events to their classrooms during the 2021-2022 school year. Proposal submission deadline: Monday, May 31.

**Elsa Heisel Sule Charitable Foundation** is a private foundation providing opportunities to nonprofits in education, community and the Arts. Letters of intent due June 1.

**Andrew Jergens Foundation** The Foundation’s prime interest is the health, education, cultural experiences and social welfare of children in the Greater Cincinnati area. Letter of intent due June 15.

**The Thomas J. Emery Memorial** The Memorial makes grants which enhance the lives of Greater Cincinnati citizens by improving their social, cultural, educational, civic and physical conditions. Letter of intent due June 15.

**William O. Purdy, Jr. Foundation Fund** The Foundation supports small nonprofit organizations whose performing arts programs enrich the cultural environment of the Greater Cincinnati area.
