(Initial consultations are free!) If you decide you would like to pursue our suggestions, we prepare a consulting agreement, concisely detailing the scope, duration and cost of the project. Then we assemble a team, led by a project manager, to work with you and your team. While the duration of all projects varies depending upon complexity, on average, most will be concluded in six months. We work hard to ensure that we have met or exceeded your expectations. Most importantly, your nonprofit will come away with the tools and strategies you need to achieve maximum community impact.
