Dear friends and colleagues,

OneSource Center acknowledges the nationwide feelings of pain in response to recent and historical injustices and we support change that dignifies the sanctity of each individual and the right to a better tomorrow for all. OneSource Center applauds the work of regional and national leaders and nonprofits who work continuously to secure justice, equality, health and safety for all, working to right the systemic social, racial and economic injustices in our country.

OneSource Center’s core values include a commitment to positive community impact, effective collaboration and continuous improvement in our goal of strengthening the impact of nonprofits serving the Greater Cincinnati community. As an organization we vow to listen attentively to understand, to look inward to see how we can make an impact, and to work deliberately to help vision a path to positive change. Together we must work to create a more equitable community for all.

Sincerely,

Christie Brown

Grant Supports Relaunch Consulting

In addition to OneSource Center's regular consulting services, our knowledgeable team has developed a "Relaunch Program" for nonprofits in response to the changing environment we are all working in. Many organizations have utilized this assistance in revisioning their future direction, and we give thanks to the Greater Cincinnati Foundation's COVID-19 Relief Fund the grant support so we are able to underwrite many of these relaunch consulting projects for our clients.

The Relaunch Program guides organizations through an assessment of their operations while helping explore areas for either ending programs with shrinking Return on Investment (ROI) or expansion of services where there is increased need. Our consultants will work with nonprofits to revisit their mission, evaluate current and potential program areas, forecast their financial picture and build a plan for moving forward.
