Anne is a human relations specialist with nearly 20 years of experience. She currently is Vice President of Human Resources with OPW Fueling Components and is responsible for global HR activities for over 2,000 employees. Her achievements include launching a leadership development program, streamlining performance management, implementing a data management system, and supervising critical M & A activities. While at General Electric, she was promoted from Human Resources Leader to Human Resources Manager. In addition to her background in human relations, Anne's special skill sets include change management, data analysis, leadership training and curriculum development.

Anne is a past volunteer of Junior Achievement.

OneSource Experience

Anne was part of the team that put together a leadership development project for United Way. She also was assigned to talent management projects at Oxford Seniors, Green Acres Foundation, and Ursuline Academy.
