Professional History

- G.E. Engineering

Education

- M.B.A., Operations & Finance, Northeastern University
- B.S., Mechanical Engineering, Northeastern University

Certifications

- Six Sigma Black Belt
- Certified Quality Engineer

Paul is a results-driven leader with significant aviation industry experience both in commercial and military engine programs. He spent his entire career with General Electric and retired as Product Manager in 2020. Paul is particularly skilled in leadership development, supply chain and logistics, sourcing, program management, and quality and operations.

Paul currently volunteers every week at the Neyer Outreach Center for Saint Vincent DePaul. AARP also makes use of his talents as a volunteer tax preparer. Paul's past community involvement includes assisting at the Ronald McDonald House, coordinating fundraising for the March of Dimes, and serving as past president of the Loveland Youth Soccer Association.

OneSource Experience

Paul looks forward to working on business service projects and leadership development.
