Professional History

- Geotechnology, Inc.
- HDR Engineering
- S & ME Inc.
- BBC & M Engineering
- DLZ Inc.

Education

- B.S., Civil Engineering, Ohio State University

With more than thirty years in geotechnical engineering, Dan is dedicated to providing quality results to clients in a timely and efficient manner. Dan recently retired from Geotechnology, Inc., where he was the East Region Geotechnical Manager. Throughout his career, he has both supervised and mentored staff, supervised business development, and written and reviewed technical proposals. Dan's clients included the Ohio Department of Transportation, commercial developers, civil engineering firms, architects, contractors, public schools, and governmental agencies. Dan's skill sets include project management, team building, supervision, governmental relations, and geotechnical assessments.

Dan is actively involved in community activities. He has volunteered with Habitat for Humanity and Samaritan's Purse. He has provided both physical and spiritual aid while on missions to Haiti and Honduras.

OneSource Experience

Dan looks forward to coaching and leadership development assignments.
